NAVAKANTH REDDY DUMPA

Azure Data Architect | Azure Databricks · Synapse · ADF · Fabric | MCT-Authorised Trainer & Enterprise Data Leader

Hyderabad, India | +91 98857 57677 | navkanthr@gmail.com | linkedin.com/in/navakanth-reddy-dumpa | github.com/navakanth1984

PROFESSIONAL SUMMARY

Azure Data Architect & Principal Data Engineer with 14+ years of experience leading enterprise data platform modernization across Azure and hybrid-cloud environments. Deep architectural expertise across Azure Data Factory (ADF), Azure Databricks, Azure Synapse Analytics, SQL Managed Instance, and Microsoft Fabric. Proven track record architecting scalable, secure data platforms, designing enterprise-wide Medallion Lakehouses, and establishing automated CI/CD release pipelines. Authorised Microsoft Certified Trainer (MCT) with certifications in DP-700, DP-600, and DP-900, recognised for robust architectural governance and cross-tenant system integration with zero production downtime.

Targeted Alignment: Azure Data Architect — Accenture / Enterprise Client (Naukri)

KEY ACHIEVEMENTS

- **Enterprise Azure Data Modernization:** Architected end-to-end cloud data pipelines on Azure connecting multi-terabyte feeds into Synapse and Databricks, reducing batch ETL processing time by 45%.
- **Cross-Tenant Integration Leadership:** Pioneered first enterprise cross-tenant go-live integrating Azure Databricks, Event Hubs, SQL Managed Instance, Key Vault, and Power BI Service with zero downtime.
- **Microsoft Fabric & Medallion Ingestion:** Designed Bronze → Silver → Gold lakehouse architecture transitioning enterprise workloads to unified OneLake storage and governed semantic models.
- **Security & Compliance Standards:** Implemented enterprise Key Vault credential rotation, fine-grained RBAC/RLS, and automated schema validation pipelines across regulated financial and CPG datasets.
- **Technical Mentorship & Capability Building:** Delivered authorised MCT training on Azure data architecture and Microsoft Fabric, upskilling 50+ data engineers across the global delivery network.

CORE COMPETENCIES

- **Azure Cloud Architecture:** Azure Data Factory (ADF), Azure Databricks, Azure Synapse Analytics, Azure SQL MI, Azure Event Hubs, Azure Key Vault
- **Modern Data Platform & Fabric:** Microsoft Fabric, OneLake, Delta Lake, Lakehouse/Warehouse Design, Medallion Architecture, Power BI Direct Lake
- **Data Modeling & Warehousing:** Dimensional Modeling, Star/Snowflake Schemas, Data Lineage, Row-Level Security (RLS), Enterprise Governance
- **Programming & Orchestration:** PySpark, Python, T-SQL, DAX, KQL, Azure DevOps Pipelines, Git, Automated CI/CD
- **Professional Certifications:** Microsoft Certified Trainer (MCT), DP-700 Fabric Data Engineer, DP-600 Analytics Engineer, DP-900 Azure Data Fundamentals

PROFESSIONAL EXPERIENCE

Lead Consultant — Data Engineer & BI Architect — Genpact India Pvt Ltd, Hyderabad (Dec 2019 – Present)

- Designed and delivered Microsoft Fabric and Azure Data platforms aligned to client business goals — including OneLake-based Lakehouse architectures, Data Warehouse layers, and governed Dataflow Gen2 ingestion pipelines built on Medallion Architecture across multi-terabyte CPG and HR workloads.
- Led client-facing technical discovery sessions, architecture whiteboard workshops, and design reviews — translating ambiguous business requirements into detailed, documented architecture blueprints and solution design specifications.
- Defined and enforced enterprise best practices for governance, Row-Level Security (RLS), data lineage tracking, deployment pipeline standards, and cost optimisation across all Fabric, Azure, and Power BI environments.
- Designed and delivered scalable Power BI semantic models with advanced DAX measures, composite models, and DirectQuery configurations — enabling near-real-time analytics for 140+ business users across global client locations.
- Developed reusable architecture patterns, pipeline templates, and deployment standards that were adopted across multiple client engagements, significantly reducing onboarding and delivery time for new distributor data feeds.
- Mentored and upskilled 50+ data engineers and analytics professionals as an MCT-authorised trainer for DP-700, DP-600, and DP-900 — building engineering bench strength on Microsoft Fabric delivery approaches.
- Led and managed CI/CD release pipelines via Azure DevOps and Git, ensuring zero-downtime promotion of Fabric and Power BI assets from development through UAT to production environments.
- Pioneered the first cross-tenant enterprise go-live of the EDGE OCR platform, integrating Azure Databricks, Event Hubs, SQL Managed Instance, Key Vault, and Power BI Service — demonstrating full-stack Fabric and Azure architecture delivery.

VBA Developer — Genpact India Pvt Ltd, Hyderabad (Jun 2018 – Nov 2019)

- Developed and maintained advanced Excel-VBA and Access-VBA automation solutions for financial reconciliation and operational reporting, eliminating ~40 hours/week of manual effort across multi-team workflows.
- Engineered automated data extract, transform, and load (ETL) routines connecting SQL Server databases with reporting front-ends, ensuring accurate reconciliation and auditable financial logs.

Operations Lead / Senior Data Specialist — Genuity Technologies, Hyderabad (Feb 2011 – May 2018)

- Led data processing and reporting operations, architecting SQL Server database queries, stored procedures, and operational dashboards tracking key delivery metrics across multiple service lines.

- Orchestrated cross-functional operational teams, establishing data quality auditing frameworks and workflow automation that achieved a 99.2% on-time reporting SLA.

EDUCATION & CERTIFICATIONS

- Bachelor of Science (B.Sc.) in Computer Science — Osmania University, Hyderabad
- Microsoft Certified Trainer (MCT) — Active Authorised Trainer
- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
